

## EVENT ANNOUNCEMENTS

### **ITEA 2 Symposium 2009**

The event along with the exhibition will focus on this year's theme: 'Business-oriented innovation that strengthens economy and benefits society'. The ITEA Community Day will include presentations on programme achievements, facts & figures and the future. A Co-summit will be held together with the ARTEMISIA Association with a programme on "Ecosystems driving open innovation in Embedded Intelligence and Software-intensive Systems and Services". Presentations will include industrial and political viewpoints as well as parallel sessions for participants to join on concrete ICT-based approaches and examples.
