# EIT ICT Labs and ITEA2 announced collaboration

Thursday, 27. October 2011

CEO Willem Jonker from EIT ICT Labs and Chairman Rudolf Haggenmüller from ITEA2 announced the agreement for joint collaboration at the ITEA-Artemis Co-Summit in Helsinki on Wednesday 26 October.

"A lot of our partners are also active in ITEA2 so it makes sense to join forces. Many of ITEA's ongoing projects make good carrier projects and by applying EIT ICT Labs' catalysts we can get innovations faster to the market." Willem Jonker points out. Rudolf Haggenmüller stated his strong support for the cooperation. "EIT ICT Labs can strengthen the business impact of ITEA and speed up the exploitation of research results" says Rudolf Haggenmüller.
