Executive Summary
The public website that provides an online presence 24/7, aims to reach a wider audience. By disseminating information about the deliverables, project progress and the results, the website is the most effective way to promote our work, build up a community and engage with stakeholders. We would like people to know that our project exists, as well as what we are doing, and how useful it can be for them. The visibility and discoverability of this website is going to enhance project recognition while increasing our credibility.
