

25 years of ITEA webinar - Belgium Sirris pitch

2 June 2023 | Online
Nicolás González-Deleito and Anna
Hristoskova

Unique blend of AI & Cybersecurity

Industry-owned, non-profit industrial research and knowledge center

Since 1949, 2.500+ member companies

Mission: Increase the competitiveness of companies through technological innovations

EluciDATA Lab

Advanced data science & AI for real-world challenges

- Digital twins
- Product usage and process analytics
- Manufacturing processes
- Vision analytics
- Distributed intelligence
- Sustainable energy systems

Team: 20 scientists, 6 women, 11 PhDs

Digital Services Lab

Cybersecurity & privacy-preservation in intelligent solutions

- Secure & trustworthy data access & exchange
- Enhanced privacy-preservation
- Data life cycle management
- Secure distributed intelligence

Team: 15 scientists and industrials, 3 women, 5 PhDs

Since 2006 active in 22 ITEA projects, supporting BE companies in innovative R&D

Machine intelligence for smart & sustainable planning & operation of IoT and Edge computing applications

TAPCOP

Traffic AI Prediction of Common Operational Picture

PROFIT

PROcess optimisation enabling efficiency through Tracking of staff, patients and equipment

Industrial research expertise in intelligent & secure solutions in various domains

Distributed renewable energy systems

Resilient digital twins

Smart city solutions

Industrial asset monitoring

Intelligent healthcare applications

Security & safety of cyber-physical systems
