

ITEA Call 2026

Information and Pitch session

NLR pitch

23 June 2026 | Amsterdam, the Netherlands
Julian de Marchi, PhD

ITEA 4

ITEA is the Eureka Cluster on software innovation

Royal Netherlands Aerospace Centre

Aerospace Vehicles Collaborative Engineering (AVCE)

Company data

Creation date: 5 April 1919
Number of employees: > 1000 (AVCE = 30+)
Country: The Netherlands

Looking to support

research and proof-of-concept projects aimed at rapid uptake of digitalization technologies in Dutch and European industry

Expertise / main products

Physics-based modelling & simulation of complex systems – Optimization. Surrogate models.
Data science & cybernetic systems – AI model robustness. Intelligent systems. Cyber resilience.
Digitalization – Digital Product Passports. Digital threads. Dataspaces. Digital twins.
Software engineering – Full-stack design / implementation / maintenance.
