

Introduction into the Cyber Physical Metaverse

18 July, Online
Dirk Elias - ITEA Chairman

The Metaverse... ...today's mainstream

ITEA Technology webinar

Is that enough?

Supersonic change in ICT and the software domain

- Generative AI
- 6G (Joint Communication and Sensing, Edge Processing...)
- Quantum Computing

➔ Each domain standalone with most impressive advances

What's up next?

[illegible]

Imagine reliable real time access...

→ Distributed and efficient systems
for all kinds of applications

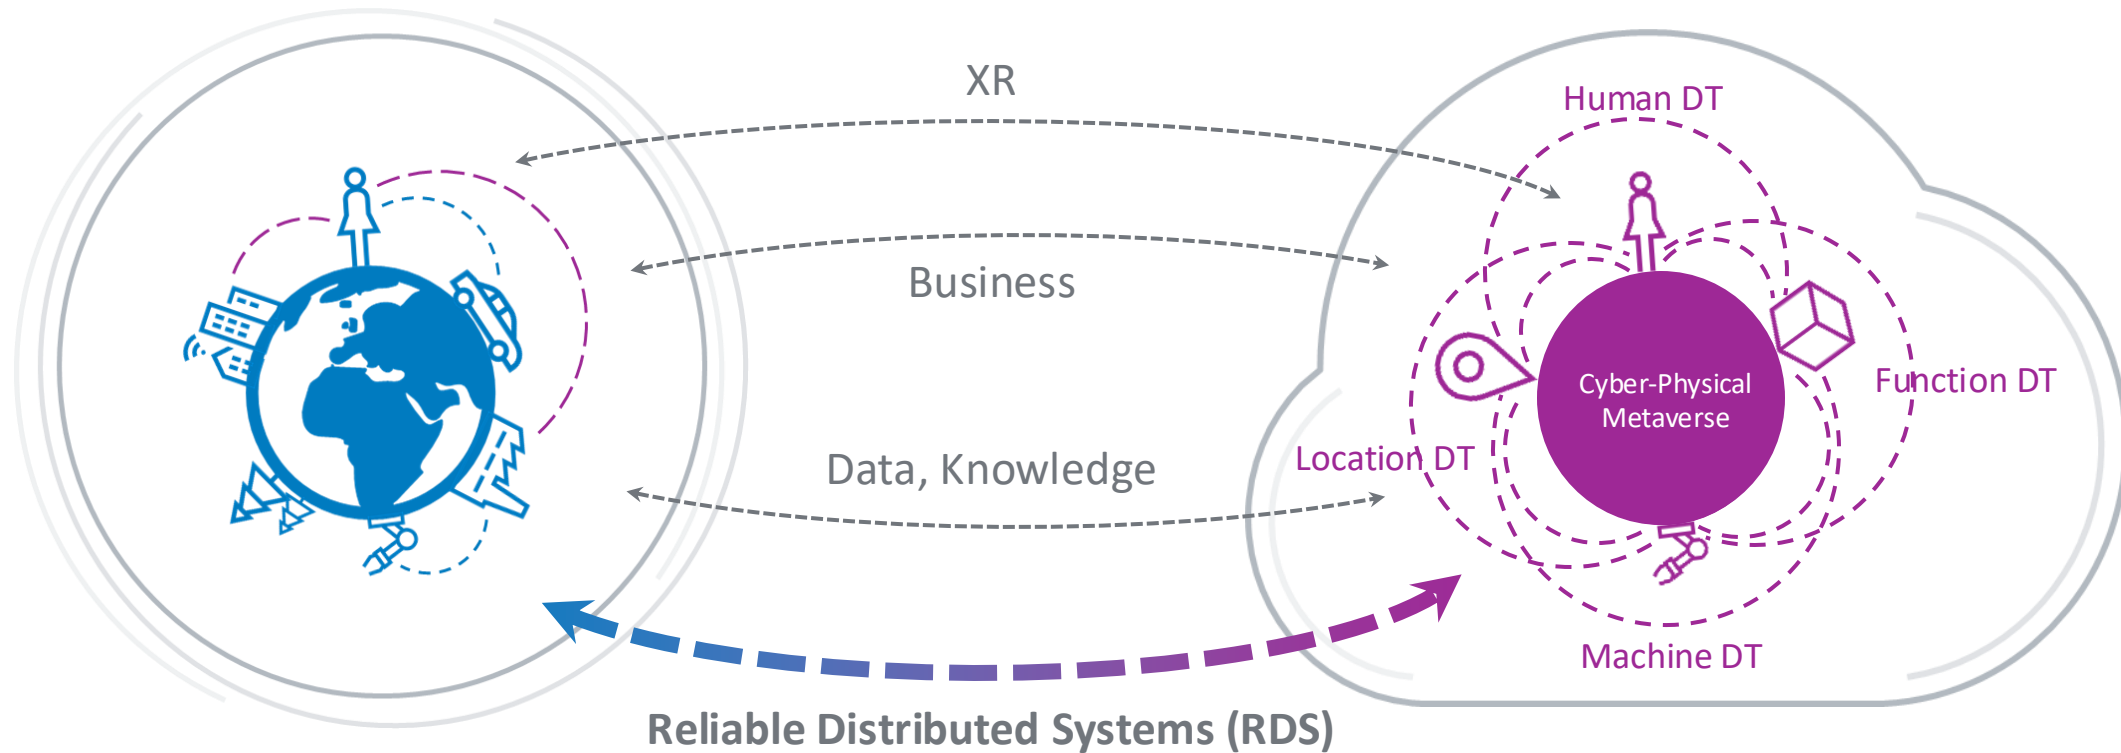

Imagine it to be safe and secure...

→ Intelligent machines and humans
in powerful teams

The Metaverse... ...tomorrow

ITEA Technology webinar

The Cyber Physical Metaverse!

Elements of the Cyber Physical Metaverse

ITEA Technology webinar

Cloud & XR enable mainstream Metaverse

RDS reliably links physical and virtual worlds

Actionable Digital Twin as API to Cyber Physical Systems (CPS)

Function (SW Service) Digital Twins improve CPS functionality

Cyber-Physical Metaverse is full of business opportunities

Supersonic change in ICT and the software domain
